Moreover, the placement of signs on public property causes damage to such property and, when done on or near traffic or directional signs or similar objects, threatens the safety of vehicular and pedestrian traffic. However, the Board is mindful of the importance of providing a forum for communication among citizens. While lamp posts and utility poles can provide such a forum, unrestricted use of signs which would interfere with the clear view of traffic safety signs by motorists and iwth unobstructed use of public streets and sidewalks. In addition, unrestricted use of such poles would permit the placement of numerous signs of widely ranging sizes and shapes which protrude beyond the poles,

thereby creating an aesthetically displeasing clutter of objects on and over public streets and sidewalks. A limitation on the size of objects placed on lamp posts and utility poles will eliminate unsightly clutter and will provide an opportunityy for a greater number of persons to communicate by this means."; and

amend further in Section 675(b) on page 2, line 18, by changing word "section" to "subsection"; by deleting the sentence beginning "No persons may affix..." on page 2, lines 25-26, and on page 3, lines 1-3; and inserting after the word "support" on page 2, line 25, the following:

"(4) No sign may be affixed with glue or any other adhesive substance except tape, nor affixed in a manner that damages any structure or any public property."

and by making the final sentence of Section 675(b) on page 3, lines 3-7, a subsection (c) and changing remaining subsection designations according;

and by adding the following sentence to the end of subsection (b) of Section 675:

"As used in this section, a 'utility pole' shall mean a pole which carries or has attached to it a wire or wires used in connection with the Municipal Railway or telephone or electric lines.";

by deleting subsections (b)(2) and (3) of Section 675, page 2, lines 22-25, and inserting the following in their place:

"(2) All corners of the sign shall be affixed to the lamp post or utility pole so that the shape of the sign conforms to the shape of the lamp post or utility pole to which it is attached and no part shall extend or be suspended beyond the face of the post or pole; (3) no sign shall be longer than 11 inches;"

> "Every person who has posted any sign on any lamp post or utility pole, or who has caused such posting, as permitted by subsection (b) of this Section, shall remove such sign within 30 days of the posting date. The Department of Public Works shall remove any sign affixed to any lamp post or utility pole if (1) more than 30 days have elapsed from the posting date contained on the sign; or (2) the sign is not posted in the manner required by subsection (b) of this Section; or (3) the sign pertains to a particular event and the date of the event has passed. Requests Granted

By Supervisors Ward and Molinari, send letter to Chief of Police, requesting that the inventory of stolen vehicles be affixed to each three-wheeler meter minder vehicle in an effort to increase the percentages of recovered stolen vehicles.

By Supervisor Britt, that letter be sent to the City Attorney regarding the procedure followed concerning the increase of garbage rate fees, noting that on June 2, 1982, an increase of usage fee was published, that the effective date was omitted and that the Rate Board did not meet until June 29, 1982 to vote on the increase, and also noting that according to the Chief Administrative Officer, the Department of Public Works and a Deputy City Attorney, this was only a technical error. In connection therewith, the Supervisor requests that the City Attorney's opinion be obtained as to the validity and legality of the procedures and notice involved and as to what recourse users have to express their complaints in that the short period of notice did not enable people ample time to protest the increase.

By Supervisor Walker, that the City Attorney be asked to advise whether the Board of Supervisors can amend an ordinance that has been enacted by a vote of the people.

By Supervisor Britt, that joint letter be sent to the City Attorney and the Department of City Planning, calling to their attention the unsightly proliferation of billboards on private property at the northwest corner of Haight and Cole Streets, inquiring whether such billboards are legal under existing planning ordinances and laws regulating public eyesores, and asking the addressees to suggest possible legislative changes to prevent this kind of blight.

By Supervisor Kopp, send letter to Assemblyman Willie Brown to inquire into his reported amendment to an existing bill, the effect of which would permit an increase in filing fees for Superior Court actions with the provision that a resolution of the Board of Supervisors would be required for such increase to go into effect, and further that all monies collected from the increse in fees would be used to build a new court hours.

The Supervisor noted that information provided to him indicates Mr. Brown made the representation that the amendment was being advocated by him at the request of the City, and asks that the Assemblyman be requested to provide information as to what authorization was received from the "City" for such amendment and who requested him to carry the rider or amendment that would allow the increased fees. Supervisor Molinari requested that a copy of this letter be sent to San Francisco's State Legislative Advocate.

By Supervisor Kennedy, that letter of inquiry be sent to the Department of City Planning and the Department of Public Works, asking for information as to the status of the construction of the Tenderloin Park at Eddy and Jones Streets.

By Supervisor Dolson, that letter be sent to the Tax Collector, inquiring as to the feasibility of preparing an information pamphlet on provisions embodied in the Residential Energy Conservation Ordinance, which would be available to interested members of the public, particularly home sellers and real estate agents.

By Supervisor Dolson, that letter be sent to the Tax Collector, inquiring into procedures used in letting out contracts for parking meter collections, with specific reference to the pros and cons of using the "per meter" basis as distinct from a "per individual collection" basis.

Requests Granted

By Supervisor Britt, that letter be sent to Park and Recreation Commission concerning the sale of Coors beer at Candlestick Park. Because of their terrible record in labor relations and negative history of dealing with minorities, inquire who has the authority to see that sale of their product at Candlestick is discontinued.

By Supervisor Hongisto, that letter be sent to Tax Collector, attaching copy of letter from W. F. O'Keeffe, San Francisco Taxpayers Association, inquiring if a procedure to ensure collection of payroll taxes from out of town contractors working on jobs for the City and County of San Francisco exists and, in the absence of such a procedure, suggesting that he devise one, perhaps along the lines suggested by Mr. O'Keeffe.

By Supervisors Kennedy and Silver, that letter be sent to appropriate City agencies to determine the feasibility and cost effectiveness of using methanol car fleets when purchasing City vehicles.

By Supervisor Nelder, that letters be sent to Mayor Feinstein, Dr. Edward Martin, Dr. Sheridan Weinstein, and Ms. Shirley Jones, concerning Mission Neighborhood Health Center, stressing its importance and urging that everything possible be done to insure this necessary and vital center remains open.

By Supervisor Nelder, that letter be sent to Director of Department of Public Works urging him to survey the area along Carrol Avenue between Keith Street and Bancroft Avenue to determine the impact of No Parking restrictions between 12 Noon and 3 PM on surrounding businesses, and to consider the feasibility of changing the street cleaning hours to a time when the businesses are not open.

By Supervisor Nelder, that letter be sent to Director of Department of Public Works requesting he provide copy of information concerning the traffic flow, directional signs and pedestrian information for Powell Street, between Beach and Jefferson, and if there is any current plan to change the present situation in response to neighborhood complaints and hazards.

By Supervisor Silver, that letter be sent to California Energy Commission regarding possibility of getting State subsidies for conversion of San Francisco's fleet to methanol use.

By Supervisor Ward, that letter be sent to Director, San Francisco Cleanwater Program, requesting information about the affirmative action hiring policies of the program. Further, requesting information about the hiring lists for eligibility of stationary engineers. Specifically, asking if out of city and/or out of state stationary engineers are being hired without regard for the 28 persons on the program's eligibility list in need of jobs.

By Supervisor Molinari, File 101-82-42, Ordinance appropriating $60,450 for professional and special services, District Attorney, that letter be sent to the Mayor asking that these matters be given to us in a timely manner so they can be dealt with. Finance Committee has been asked to hold extraordinary special meetings on Mondays to deal with these items, which could be dealt with in the normal course of events.

By Supervisor Molinari, that letter be sent to Park and Recreation Commission inquiring what they intend to do about the sound system at Candlestick Park; also inquire of the number of ushers that have been reduced dramatically. Was this done with authority of Park and Recreation Commission? It poses difficulty in seating and in keeping the aisles open for fire safety.

By Supervisors Molinari and Walker, that letter be sent to John Walsh, Civil Service Commission inquiring as to whether the Commission had contact either written or verbal regarding Proposition F with Local Government Services Division prior to letter of August 23 from George Brown, Manager, Merit System Services.

Requests Granted

By Supervisor Molinari, that letter be sent to the Chief of Police, directing his attention to the recently posted signs restricting truck traffic on Chestnut Street, between Van Ness Avenue and Laguna Street, advising there is reportedly no enforcement occurring relative to the restriction at this time and the street is being used as an alternate route, and requesting that he notify his Traffic Division to start enforcing the traffic regulation.

By Supervisor Molinari, that letter be sent to the Chief of Police to inquire as to how many parking patrol persons are on duty in Residential Permit Parking Area A, noting the Supervisor has received complaints from residents in this area that there is little or no enforcement of the parking regulations. By Supervisor Molinari, that letter be sent to the Mayor, inquiring as to when the proposed alternate security plan of walking patrols in City Hall will be implemented, in view of the fact that Judges of the Superior Court have concurred with the Board and voted on October 15, 1982 to rescind the order for stationary security systems at the Van Ness Avenue and Polk Street entrances to City Hall.

The Supervisor wished it noted that he supports use of the #58 line buses on California Street, but believes that the shorter 15-minute headways could be maintained while providing bus service to California Street.

By Supervisor Ward, that letter be sent to the Chief of Police, requesting that every effort be made to station patrol cars in the area of 19th and Holloway Avenues, during the morning and evening rush hours in particular, in order to stem the tide of individuals running red lights in an area that has had twenty incidents involving autos and pedestrians since the beginning of the year. (See File 20-82-23, T&T)

By Supervisor Ward, that letters be sent to the Department of Public Works and Muni, requesting information as to whether or not it would be possible to have the traffic signal at 19th and Holloway Avenues triggered by the presence of an LRV in a manner such as to allow pedestrians additional time to cross to or from the tracks, and further requesting the Department of Public Works to investigate the traffic pattern on that corner with a view to altering the traffic signal to give more time to crossing pedestrians or to have a pedestrian only green signal, such as are in the financial district. 12. When it is decided to contract out a service, what happens to the City employees who would normally have done the work? What jobs are they assigned to? Are any terminated because of this? If so, is any termination or severance pay involved?

13. What happens when a department becomes overloaded? Does it hire more people, getting further behind during training; authorize overtime or contract out the overload?

14. Is there a difference between contracts and funding for non-profit organizations, e.g., alcoholic rehabilitation programs being administered by a non-profit organization for the City?
